

Ful-Fi Drum

100% Recyclable Fiber Drums

California Container Company has developed innovative, 100% recyclable fiber drums with a range of standard diameters for the storage and shipping of both liquid and dry products.

Our fiber drums have the same strength, stocking capacity, and temperature consistency as metal and plastic drums, with the advantage of being measurably lower in cost and 100% recyclable.

Available in eight drum diameter sizes 12½", 14", 15½", 17", 18½", 20", 21½", and 23"

In all, 30 volume options ranging from 7½ gallons to 100 gallons.

- Comes in single wall fabrication — SWFF
- All-fiber drum with and without metal parts
- Low tare weight and telescoping offset cover with positive flush tape and offset tape seals

- Easy to stack
- Ideal for dry and solid materials, hot pour resins and rolled products

Key Benefits of California Container Company Fiber Drums

- **Reusable**

The second-hand market is a key avenue for reuse of these drums.

- **100% Recyclable**

- **Lightweight and Durable**

Storage options for both liquid and dry products — processed fruits and vegetables, dehydrated products, powder, spices, liquids like sauces, almond milk etc.

- **Economical and Stackable**

Less expensive than metal and plastic drums.

- **FDA Approved**

Raw materials are in compliance with relevant FDA requirements for food packaging.

- **Proudly Made in the USA**

Manufactured under strictest health and safety standards.

- **Unlimited Capacity**

We manufacture over 2 Million drums a year with the capacity to increase as needed.

- **Exceptional Customer Service**

We pride ourselves on being customer focused!
